

COULD YOU BE OUR NEXT

JUNIOR LINKED DATA MODELLER

Growing fast, we are ready to mentor a postgraduate – or someone with a theoretical, academic or industry-gained grounding in data design – to become a skilled Linked Data Modeller, creating solutions that simplify complex data.

We're looking for someone whose study or work has included designing data, ideally with linked data. We value passion in working with structured data and real world appreciation for how data is used. We encourage active participation in the data community.

WHO WE'RE LOOKING FOR

ABOUT YOU

A background in data design, whether through study or work. Someone who gets their kicks out of working with well-structured data and who has some interest in being active in the data community.

EXPERIENCE & SKILLS

No specific requirements, but we want you to have a solid, theoretical academic or industry gained grounding in data design

EDUCATION & TRAINING

Solid theoretical foundations - CompSci or Maths - either through education or practice with knowledge of modern software tools and processes

WE'RE LOOKING FOR

- You'll have some knowledge of types of data models and how to implement them from requirements
- Comfortable interacting with clients and data users, you'll have excellent communication skills and be a dab hand at working within a collaborative team
- Familiar with modern tooling, you'll be looking to expand your current experience working with multiple clients

For salary expectations, more details and how to apply visit the careers section of our website

www.epimorphics.com/careers

WHAT TO EXPECT

You'll get 25 days holiday + bank holidays, a great pension scheme, a budget for laptop and time to attend conferences of your choosing with discretionary travel assistance

You can opt into our EMI share scheme - all shareholders are employees

We offer flexible working terms. Many people work from home on Friday and at the discretion of your manager, we're flexible the rest of the time so life commitments won't be a problem

Portishead, Bristol

An attractive coastal town with an independent high street and marina just a stone's throw away

WORKING AT

EPIMORPHICS

We're community minded. We care about what our employees think and want them to have a say in what we do and how we do it. We've worked with both public and private companies to build ground-breaking linked data services which have a positive benefit on society.

Our team comprises accomplished computer scientists who helped define the standards for the Semantic Web and Linked Data. Between us we form an eclectic bunch of people who love to solve interesting challenges, big and small.

SOME HISTORY

- 100% employee owned company
- Client focused projects
- R&D product based development

WE WORK WITH

GETTING HERE

From Bristol Bus Station you can be here in 40 minutes by catching the X3 and getting off at Sainsbury's. Or if you've got a podcast you want to finish, take the X4 for a more scenic route around the houses and be here in an hour

It's about an hour cycle from Bristol, but when you get here we have secure bike storage and tea, coffee and biscuits on tap

If public transport and cycling aren't your thing, we've got a small onsite car park and plenty of free on-road parking making it easy to commute from further away
